

Ordinary facism

FASCISM (Italian fascismo, from fascio - a bunch, a sheaf, association), sociopolitical movements, ideologies and the state modes of totalitarian type. In narrow sense fascism - a phenomenon of a political life of Italy and Germany 20-40 years of XX centuries. In any versions the fascism opposes institutes and values of democracy т. н. The new order and extremely rigid means of his statement. The fascism leans on mass totalitarian political party (coming to authority, she becomes the state - exclusive organization) and indisputable authority of "leader", "Furor". Total, including ideological, mass terror, the chauvinism, xenophobia passing in genocide in relation to "another's" national and social groups, to values of a civilization hostile to it - indispensable elements of ideology and a policy. Fascist modes and movements of fascist type widely use demagoguery, populism, and slogans of socialism, imperial rule, and apologetic apologist wars. The fascism finds a support mainly in socially destitute groups in conditions of national crises and cataclysms of modernization. Many features of fascism are inherent in various social and national movements of the right and left sense. At seen contrast of ideological installations ("class" or "nation"), on ways of political mobilization of a society, receptions of terrorist domination and propagation to fascism are close totalitarian movements and modes of the Bolshevism, Stalinism, Maoism, " Red Khmers ", etc. In conditions of weakness of democratic institutes the opportunity of development of movements of fascist type and transformation of fascism into serious threat is kept.

The Big Encyclopedic Dictionary

Since November 7 (on October 25) 1917 and on present time in Russia there is at authority an Ordinary Fascism, which carriers are groups of anonymous authority.

Groups of anonymous authority are any people or the groups of people organized in secret or officially not registered associations, substitutions of Imperious functions of the state having the purpose, his institutes, church or the world community.

The top of an imperious pyramid of anonyms is secret lodges puritans (V.M. Purishkevich named them Jew Masons, or the modern name « White Masons »), and supervise over them Prince, Commanders and the masters forming a certain Advice, controlled by the Supreme Prince. As Puritan generals and marshals not so important precisely refer to. What that a part of secret authority, is probable in sphere of a science and culture, and in part in business, hold on itself orthodox Masonic lodges. Today in Russia it is totaled more than 500 various lodges, the most part Puritan, and traditional Masonic make no more than thirds of total. All members lodges some thousand person, and with families their general number are not exceeded by 10 000 person. It would seem, a little on the huge country, but even these Satanists have sufficed for full domination in economy, ideology and a policy. They completely lean on wider base layer of the population of Russia. Base carriers of Puritan fascism are immigrants, filling open spaces of Russia at the end of the nineteenth - the beginning of the twentieth centuries after a cancellation of feature of settled way of life.

As the widest social and ideological base of fascism Moslems and the atheists professing Jew Orthodoxy heresy or the Novgorod -Moscow heresy, known in Russia from 14-15 centuries serve orthodox. The essence of heresy consists in following in a life, religion, a life and business to rules of the Talmud. The control system of Russia of fascism deeply conspire also is latent from eyes of usual people.

In conformity with the definition of fascism given above we shall consider separate elements of fascism in Russia and their display in the real world.

In initial face the fascism in Russia has been sent as the theory and practice of Marxism by Bolsheviks Leninist. They have shifted bases of construction of socialism and communism on Russian. We shall note, that theorists Charles Marx and Fredric Engel's were Germans of a known ethnic accessory. Puritan circles of Anglo-Saxons fostered the army of aggressors allocated ideology of communism and atheism. Immigrants, as the most oppressed and deprived of civil rights inhabitants of Europe and Russian empire have been subject to this virus first of all. Puritans, obviously, for a long time have noticed habits of a locust and propensity to self-destruction of this people. They have decided to use energy of destruction of Satanists for liquidation of the most important religious enemy in a history - Russian empire and Orthodoxy. As a result of fascist revolution of 1917 in Russia has been constructed totalitarian communistic build, held on till 1991. For the expired period it has included some stages.

The period of totalitarian communism.

First - a revolutionary stage. At this stage forces have been entered into Russia for revolution from the outside. One of groups has been sent by train from Switzerland and included extremely Russian ethnic immigrants headed by V.I. Lenin (the Form on mother) and accompanying his N.K. Krupskaya and Inez Armand, only 33 persons. Revolutionaries have supplied with gold and have passed through Germany

struggling with Russia. The second group was made by comrades Trotsky (Bronstein), all puritans and immigrants in quantity 300 person. They arrived to Petersburg, in 1917 by a steamship from New York. Immigrants have organized a number of disorders in streets of Petrograd when to participants of excitements fascists paid up to 70 rubles for appeals to overthrow of authority and up to 140 rubles for shooting in streets. Mutiny on November 7, 1917 has led to authority in Russia Bolsheviks - Leninist. The organizer and the financier of disorders and fascist revolution the representative of world Puritan circles was A. L. Gelfand (Parvus), the former citizen of Russian empire, subsequently the citizen of Germany. A.L. Gelfand, probably, was one of authors of the well-known Reports.

In conformity with work Last Days of Romanov (Robert Vilton, London, 1920) in 1918-1919 the administrative board of Russia was made by 556 outstanding officials of the revolutionary state, of them only 17 Russian. More in detail: 17 Russian, 2 Ukraine, 1 Armenian, 35 Latvians, 15 Germans, 1 Hungarian, 10 Georgian, 3 Poles, 2 Finns, 1 Czech, 1 Karaim and 457 immigrants (according to the Soviet newspapers). Thus the percentage of immigrants in Russian empire did not exceed 2 % from a population in view of Poland where half of immigrants lived approximately. On family lists of officials are resulted in the Appendix 1 and 2.

For maintenance of a totalitarian fascist mode of Bolsheviks the party, which has turned later in Communist party of Soviet Union was generated. First and last democratic institute of Russian empire - the Constituent assembly has been dispersed by Bolsheviks on January 6 (19), 1918. It was ratified, so-called, dictatorship of proletariat. And actually - dictatorship of Puritan fascism. Proletariat, soldiers and sailors, the part of intelligence, bourgeoisie, officers and the poorest peasantry have been subjected to a mass psychosis and is compelled were gave a wave of revolution. Fascists have taken advantage of burdens and deprivations wartime and a total impoverishment of weights.

The essence of all revolutions is religious revolt on change of the world order, which has established by centuries and the belief, controlled and skilful organized by Satanists.

Now all world could observe as at a cinema methods and ways of carrying out of revolutions in Georgia and Ukraine. Features and character of carrying out of mass psychoses on the huge areas with skilful financial additional charging, were evidently shown V. Jushchenko's by puritans on Maidan Nezaleznosti in Kiev in 2004. But we shall return to the past.

Second - Civil war. To repeat details of red terror and domination of revolutionary necessity there is no sense. Murders, and expropriation destroyed violence, a robbery centuries saved up spiritual and material assets. Immigrants, representatives of Puritan fascism were engaged in destruction of color of Russian people exclusively. In the Appendix 3 the data on archives of boundary districts about destruction Russian the soldier and officers are given by three of "revolutionaries". In particular, December of 1919. A scene of action the Archangelsk province. Hero Katsnelson Zalman Boruhovich, the chief of Northern boundary district, chairman provincial ЧК and that "three", "judicial" body where all are solved absolutely by its chairman! Members of "three" the trusted members of board ЧК, forced to show collective nature: Vilenchik Willy Moiseevich and Norinsky (Grobman) Nohem Osipovich. Results for one and a half year of "work" of "three" of 25,400 death sentences with « immediate execution ». Without "three" Katsnelson kills more than 34,200 taken from concentration camps Kholmogor, Archangelsk, Petrominsk, Plyseck, Elnik Russian the soldier, officers, generals and admirals. Calls a concentration camp are organized on December 9, 1919. Events occurred long before Solovkov and GULAG.

Result of work of fascists in the North of Russia 59,600 killed Orthodox and Moslems. And it not operations!

Who was in the fourth authority during revolution and civil war? From 42 employees (editors and journalists) newspapers available at that time ("Pravda", "Izvestia", « the Banner of work », etc.) only one Maxim Gorky was not the immigrant.

Thirdly - the period of "cleanings" with 1921 on 1941. In the Appendix 4 the data on percentage participation of immigrants in NKVD are given. And all management of People's Commissariat of Internal Affairs was entirely consisting of immigrants. They destroyed Soviet people in prisons and camps, carried out cleanings and reprisals, and, basically, against immigrants, usual people, but not puritans. Today all mortal sins are assigned exclusively on Russian. For an example I shall result some surnames:

- Narkom internal affairs of the USSR - the Berry Henry Grigorjevich, Lithuanian the immigrant.
- Yezhov who has replaced the Berry has been married on immigrant.
- The first assistant - Agranov (Sorenzon) Jacob Saulovich.

GU GB:

- The chief of the Special department Gay Miron Ilyich.
- The chief of the Economic department - Mironov Samuil.
- The chief of the Foreign department - Slutsky Arcady Arkadjevich.
- The chief of the Transport department - Shanin Abram Moiseevich.
- The chief of the Operations section - Pauker Charles Veniaminovich.
- The chief of the Special department - Dobroditsky Veniamin Isaakovich.

- The chief of the Antireligious department - Ioffe Isay Lvovich (it was responsible Destruction of churches and priests).
- The chief of Central administrative board of workers'-and-peasants' militia - Bylsky Lion Naumovich.
- The chief of a criminal investigation department of People's Commissariat of Internal Affairs of the USSR - Vul Leonid Iosifovich.

GU CAMPS AND SETTLEMENTS OF PEOPLE'S COMMISSARIAT OF INTERNAL AFFAIRS

- The chief - Berman Jacob Matveevich.
- Till 1936 the Chief of Central administrative board of Corrective Labour Camps - GULAG - the commissioner of III rank Berman Matvey was, and the chief of the Department of People's Commissariat of Internal Affairs of the USSR one more commissioner of III rank Berman Boris was. Obviously, it was family contract Berman.
- The assistant and the chief of free prisoners management of People's Commissariat of Internal Affairs of the USSR Firin Samuil Yakovlevich.
- The chief of camps and settlements in territory Karelian ASSR, simultaneously the chief Belomor political camp Kogan Samuil Leon.
- The chief of camps and settlements of Northern edge - Finkelstein.
- The chief of camps and settlements of Sverdlovsk area - Pogrebinsky.
- The chief of camps and settlements of Western Siberia - the Sabot.
- The chief of camps and settlements of Kazakhstan - Volin.
- The chief the ELEPHANT (Solovki camp of special purpose)- Serpukhov.
- The chief of the Verchne-Ural political isolator special Purposes - Mezner.

The management of Archipelago GULAG has consisted only of puritans - immigrants. "Honor" of the invention of these well-known camps of death belongs to puritan Natanu (Naftaly) to Aronovich to Frenkel what the western seal never mentions, dumping "camp" on Stalin.

The quantity Orthodox, Moslems and Jew, destroyed by immigrants, does not give in to an exact estimation, but it is possible to tell safely, that victims were millions and millions.

In the Appendix 5 representation about structure of the supreme bodies of authority of the USSR in 1935-1938 is given.

Fourthly - Great Domestic war. The compelled association of puritans and the Soviet society with the purpose of a joint survival.

Fifthly - the post-war period to Stalin's death. The immigrants who have visited in Western and the East Europe with army, were typed air of freedom and new instructions from the confessors - puritans. As always happened in a history of Russia, after foreign campaigns there were the revolutionary situations, which are warmed up by masons of various awards. A vivid example - mutiny of Decembrists in 1825. All Decembrists were masons and have decided to arrange revolution on change of an imperial mode with democracy of Protestantism.

I.V. Stalin strengthened the cult of personality and dictatorship. As the dictator of it immigrants and recognize only the West. It is no wonder; in fact it has bet raid the owners of puritans and began to carry out too independent policy. As the big expert on groups of anonymous authority and a history, Stalin has opened new plots of immigrants on change of a facade of authority in the USSR. It were plots of doctors and illegal cosmopolitans. Illegal cosmopolitans it also is one of names of masons or puritans. For punishment of new revolutionaries there was no necessary legislative base, therefore all religious opponents have been restored in the rights after Stalin's death. Actually it were conflicts between separate branches of groups of anonymous authority, on a religious accessory - Satanists.

During this period the system of a totalitarian communistic mode has managed to stabilize interethnic attitudes and began to build a new generality of people - Soviet people. Soviet people this society based on principles of atheism, therefore religion and the ideology of immigrants began to be leveled by humane values and orthodox base of culture of Russian people.

Nevertheless, the ideology and religious values сатанизма immigrants were hardy and ineradicable. For career promotion from Soviet people it was necessary for men to marry necessarily on immigrants as children became true fascists and a product of creation of new race of masters of Russia.

Sixthly - the period after Stalin's death till 1991. After Stalin's death and punishment above Beria, new generations of immigrants have finally seized power in the USSR by discharge Khrushchev and arrival Brejnev. Wives - immigrants became a vehicle on road of authority. In conditions of total domination of immigrants of the person of other nationalities for penetration into an imperious vertical used a marriage on переселенках. As an example - surnames of the most known Kremlin leaders, which wives were immigrants: Andreev, Buharin, Vorovsky, Voroshilov, Kalinin, Kirov, Lunacharsky, Molotov, Roars, etc. From times more close to us it is possible to add Brejnev, Suslov and the first president of Russia Yeltsin. On immigrants have been married also Kuibyshev, Poskrebishev, Yezhov, Tukhachevsky.

Last wife Stalin (informally) was the Rose Kaganovich, sister Lazarja Kaganovich. Senior son Stalin Jacob has been married on immigrants. Daughter Stalin Svetlana was married to the immigrant. Malenkov had the son-in-law - immigrant. On переселенке son Hrushcheva has been married also. This list can be continued, but, I think, that in it necessities are not present, for uncles and clannishness, involved on blood of immigrants, already and so are obvious. Antropov, itself to a floor the Armenian - a floor the immigrant, has been married on immigrant. Here only Gorbachev as though drops out of these lines, but the daughter of it has married the immigrant.

A. Jakovlev as the confessor, families Gorbachev's, probably, for destruction of the USSR since young years has entered this family into the international freemasonry. After performance of mission, family Gorbachev's, obviously, has been accepted also in head lodges puritans and has fraternized with « the Skull and Bonds » in the USA, including in the structure, R. Regan, Bush's family, Cheney, M. Thatcher, etc. Gorbachev were zealous executors of will of puritans and were satisfied with not so big financial indemnifications, but have been attached in a circle great this world and have received satisfaction of vanity. Probably, it was main defect Gorbachev.

Immigrants of the USSR, authority *предержащие*, strictly limited a stream of emigration to Israel and did not release those from the USSR. They were afraid of reduction of the influence and loss of the control over the USSR. Gorbachev's arrival and association of efforts Puritan lodges « the Skull and Bones » in person R. Regan and G. Bush Older have solved this problem, they have risked, having released the Iron Curtain of the USSR. Probably, Gorbachev managed to convince puritans that in the USSR the new generality of the immigrants who were getting mixed up terribly with local population and capable to undertake imperious functions of management by peoples of the USSR was already generated.

Coming to power of descendants of immigrants of family Yeltsin in 1991, has opened new page of occupation of the USSR and Russia.

The period of totalitarian liberalism.

First - a transition period. 1991-1993. The period of parallel existence of the USSR and Russia B. Yeltsin. The USSR successfully collapsed masons of a communistic mode. In it have succeeded M. Gorbachev, A. Jakovlev, E. Shevarnadze. The empire was scattered on pieces. Members of the Political bureau, representatives of the Soviet Republics, took away the big loaf on the corners. Immigrants have understood what to keep in hands of the USSR it will not be possible, besides they have received precise instructions from puritans about destruction of the Soviet empire. Pity attempt GKCHP to keep the USSR has been ignored by immigrants and Russian people, which fondly expected approach of freedom. The personnel structure of a management during this period is resulted by Russia in the Appendix 6.

By way of illustration I shall result the list of pure immigrants, members of the top management of Russia:

The president of Russia B. Yeltsin;
The adviser of the president on questions of economy - Livshits.
Minister of Economics - Yasin.
The deputy. Minister of Economics - Urinson.
Minister of Finance - Panskov.
The deputy. Minister of Finance - Vavilov.

- « The Moscow News » - Karpinsky.
- « The independent Newspaper » - Tretiakov.
- « Evening Moscow » - Lisin.
- « The literary Newspaper » - Udaltcov.

Puritans of the West could sleep easy. Immigrants on 99 % became owners of pure local surnames and names Russian people did not penetrate into essence of an event and politely expected sudden improvement of the life and display of miracles of capitalism.

After execution of a straight line to the Supreme Soviet of RSFSR and the termination of imperious powers of deputies of old convocation, the new Constitution of the Russian Federation completely written by representatives of groups of anonymous authority for eternal accession of ideals religious сатанизма has been accepted. The constitution of the Russian Federation is a masterpiece of Masonic idealism and Puritan absolute power on a planet the Earth.

Privatization, plunder of the property of the USSR, mass destruction of the population, gangsters, narcotics, prostitution, hegemony of ideology of liberalism ...

All events since 1993 and to this day, are well- known and experienced Russian people on the skin. To describe and prove national structure of bodies of the central authority any more has no sense. It will consist practically all of descendants of the immigrants who have arranged revolution of 1917.

Let's bring some results. From the middle of 50th years in the USSR the ideology of communism began to be substituted by ideology of Puritanism, communistic management странюю began slowly, but truly to pass to positions of liberalism, as political embodiment of Puritan ideology.

For such revolution of a vector of ideology in the USSR agents of influence - were got by A. Jakovlev and O. Kalugin. Photos of 50th years with these persons in an environment of personnel employees of CIA were kept. A. Jakovlev was made the adherent of Freemasonry by Prime-minister of Canada P. Trjudo. Colleagues - F.M. Burlatsky (up to 1964), G. H. Shakhnazarov, G.I. Gerasimov, G.A. Arbatov, A.E. Bovin, E.M. Primakov, and also A.D. Saharov and E.G. Bonner have then appeared. Have then adjoined V. Korotich, J. Afanasjev, E. Jakovlev, G. Popov and G. Arbatov.

At the end of 80 and the beginning of 90th years through a network of representations of Institute Cribl and establishments similar to it instructive preparation of agents of influence hundreds the person have passed, the destroyers who have made personnel skeleton of the USSR and Yeltsin's future mode, including: G. Popov, G. Starovojtova, M. Poltoranin, A. Murashov, S. Stankevich, E. Gaydar, M. Bocharov, G. Javlinisky, J. Boldyrev, V. Lukin, A. Chubays, A. Nujkin, A. Shabad, V. Bokser, many "shadow" from Yeltsin's environment, in particular the head of his elective campaign in Ekaterinburg A. Urmanov, together with. Virutin, M. Reznikov, N. Andrievskaja, A. Nazarov, outstanding journalists and workers of TV.

The major stage in a withdrawal from communism and to transition to liberalism became Gorbachev's introduction into structure of members of the Tripartite commission in January 1989. The meeting of the main architects of the Soviet reorganization and the "brothers" working for "blessing" of " the Architect of the universe " and " the new world order ", has taken place in Moscow. The Tripartite commission represented its chairman David Rockefeller (it the head of Advice under the international attitudes), Henry Kissinger (the head "Bnay - Bret"), Z. Bertram, V. Whisker Eaten and J. Nakasone, and also Sores.

In May 1989 the monthly journal of immigrants in Paris "L'Arche" informed, that in Moscow the delegation of French branch " Bnay-Bret " from December 23 till December 29, 1988 stayed in structure of 21 persons led by president Mark Aron. The first box of this award has been organized during visit and in it 63 members by May 1989 have consisted. He is J. Luzhkov, V. Gusinsky, A. Smolensky, A. Shaevich, M. Khodorkovsky, M. Fridman, P. Aven, B. Hait.

Huge influence in Russia brothers of the Maltese award began to use: M. Gorbachev, B. Yeltsin, B. Berezovsky, A. Jakovlev, R. Abramovich, E. Shevarnadze, P. Borodin. In August 1992 Yeltsin signs the Decree № 827 " About restoration of official attitudes with the Maltese award ". The maintenance of this decree some time was kept in full secret. The Ministry for Foreign Affairs of Russia was recommended to sign the report on restoration of official attitudes between the Russian Federation and the Maltese award.

The great National French Box was officially registered in Moscow in the beginning 90. In the Moscow Library of the foreign literature figures of a Masonic award Rosenkreizer have twisted the jack. Club " Citadel " has opened. In Russia the Masonic club " Rotary International " became popular, widely widespread in the western countries, the message on which opening, has acted on June 6, 1990 in the reporting of the television program "Time". His branches were quickly distributed across all Russia, and in Petersburg two open even. Puritans of the first appeal in this club become the chapter of administrations of Moscow and Petersburg Luzhkov and Sobchak, banker Gusinsky, known democratic functionaries M. Bocharov, A. Ananjev, J. Nagibin, E. Sagalayev On a sample of one of the main organizations of Puritanism Bilderberg club - in 1992 is created his Russian analogue - club " Magisterium ", which in the beginning has united about 60 "brothers" on spirit. Influential award is reforms - club " Interaction " uniting businessmen, heads of bank, exchange establishments, large government officials, спаянных in a single whole to form a policy of Russia by a principle « the big money do by desire a history ».

Heads this club one of conducting figures of Puritan movement - E.T. Gaydar, and also a number of odious persons similar to it - A.B. Chubays, K.N. Borovoj, L.I. Abalkin, E.G. Yasin, A.P. Pochinok, E.F. Saburov, O.R. Latsis, etc. Among members of club B.G. Fedorov, S.N. Krasavchenko, N.P. Shmelev, S.S. Shatalin. Has been created in Russia and analogue of form of the Masonic control widely distributed on the West above the literary environment - "foams - clubs" of the organization. To he began so-called « Russian Foam - center » (among them - B. Ahmadulina, G. Baklanov, T. Bek, D. Granin, J. Davidov, D. Danin, Is scarlet. Ivanov, S. Kaledin, D. Lihachev, B. Okudzhava, Century. Oskotsky, A. Pristavkin, L. Razgon, R. Rozhdestvensky). In 1993 one more organization of Masonic type - the Award of Eagle is created. According to the charter she unites " on the basis of the general interest " " the best people ", develops system of elite communications for realization political and economic targets.

As one of conducting heads of a world freemasonry, a member of Simultaneously tripartite commission, Advice under the international attitudes, Bilderberg club, the chapter of an award of immigrants of "Bnay-Bret" G. Kissinger wrote: « I shall prefer in Russia chaos and civil war of the tendency of its reunion in the uniform, strong, centralized state ». And his colleague on a Puritan award " Bnay-Bret " Z. Bzhezinsky rigidly has declared: « Russia will be shattered and under trusteeship ».

Muslim adherents of Masonic movement were united by " Young Turkey ". The basic idea - creation Great Turan. In particular, the pupil of this Masonic organization became G. Dzhemal, subsequently chairman of Islamic committee of Russia. In the beginning of 90th years members lodge became heads of the Chechen Republic of D. Dudaev (and later and Maskhadov, Basayev), presidents of Tatarstan M. Shaymiyev and Ingushetia R. Aushev.

According to the orthodox newspaper, in 1999 the Swan has visited the largest French Masonic lodge " Great East ". At his participation ancient ritual then honorable Masonic signs, have been handed it has been lead.

The most detailed information on Puritanism in Russia is resulted in O. Platonov's book « Russia under authority of masons », 2000. The list about 500 most known adherents in Russia is resulted in the Appendix 7.

Thus, even the superficial sight at elite and a management of Russia since 1917 and on present time, shows full domination of immigrants and groups of anonymous authority on behalf of puritans. The Puritan fascism could lean only on totalitarian ideologies of communism, and then totalitarian liberalism. Political the tool of domination of fascist ideology there are mass totalitarian political parties (coming to authority, such party becomes the state - exclusive organization) and indisputable authorities of the leader or the President. The party of Bolsheviks - Leninist, actually has developed immigrants - puritans into Communist party of Soviet Union. To becoming of communistic ideology all elements of fascism - ideological and mass terror against Russian bourgeoisie, merchants, кулачества and accompanied intelligence, xenophobia to alien immigrants religious faith Orthodoxy and the Islam. For attraction on the party and strengthening in the head of the state small кучки the radical immigrants professing religious сатанизм, the demagogu, populism, slogans of socialism and communism, construction of new "empire" of proletariat and labor peasantry, apologetic wars as world revolution was widely used. The Puritan fascism has found the base in a class lumped - proletarians and the poorest peasantry caused by total crisis of Russian autocracy in result провоцирования by Anglo-Saxons - puritans of the First World War. The basic moral and religious thesis of fascism - revolutionaries has been described in the Talmud - all blessings terrestrial, money and means of production should belong Got chose to people - to immigrants. Proceeding from this thesis, there are clear slogans and practice экспроприации properties of former private proprietors of Orthodoxy and the Islam, robberies of banks and people. Bright literary example and the character of that epoch the hero of " the Dog heart » M. Bulgakov - Shvonder in lather and as a Mouser on one side serves. As other ideal of the real hero - the Satanist of an epoch of revolution and Civil war A. Golikov, who has taken in a consequence a literary pseudonym Gaydar serves. A. Gaydar in 16-17 years old has destroyed a personal hand, a checker and has drowned thousand and thousand White Guards, the bourgeois, fists and representatives of small nationalities in Siberia, Khakassia. Subsequently, after a direction on psychiatric treatment, it became the children's writer written the books for children of revolution. The greater cynicism and a moral crime cannot be presented, when the tyrant and the mass murderer succeeds in ideological education of young generation. Many works are devoted to totalitarianism of communistic system of the USSR, and a priori it is possible to count the CPSU party of fascist sense. In view of a management of party and the USSR groups of anonymous authority of immigrants on behalf of puritans, it is possible to draw a conclusion, that the CPSU and the USSR was a product of totalitarian communism and Puritan fascism, and in deep conspiracy to the form a screen of domination of a radical layer of immigrants - Satanists. Ridiculous references of defenders of Bolsheviks - Leninist that immigrants in themselves could not make revolution as the predominating role in events of immigrants is insignificant, do not maintain any criticism. The dialectics переселенческого Marxism - Leninism, proves domination of the thesis of dialectic development and transition of quantity in quality, shows in the nakedness dictatorship of immigrants in all state and retaliatory authorities of RSFSR and the USSR when after branch of Poland, in a quantitative proportion less than 1 % of immigrants to all population of Russia, made more than 90 % of the country leaders. Especially, revolution was impossible without

financial injection on the part of the international Puritan circles in person A.L. Gelfand. Under A.L. Gelfand's order puppets of puritans - immigrants - by V.I. Lenin in Russia, Clara Cetkin and the Rose Luxembourg in Germany have been actually killed.

I.V. Stalin's cult of personality, the протѣж of Puritan fascism in the USSR, was caused with a withdrawal from domination of fascists from real authority to the USSR, a distance of his adherents from the blessings and temptations of a modern civilization as material riches and household well being. By the end of 80th years adherents of totalitarian communism, fascists have realized isolation from universal economy and the brothers and sisters in other civilized countries of the West. Fascists have understood, that more the ideology of totalitarian communism does not allow to contain group of anonymous authority and their family in sufficient luxury and to possess material benefits of a civilization, and also to create world empire of immigrants - puritans on the basis of ideology of communism. Totalitarian liberalism of the West and group of anonymous authority, have decided to change existing build the USSR. Post-war development of the USSR and revival of Orthodoxy and Islam have shown, that the initial purpose засылки puritans - immigrants to Russian empire did not give final and irrevocable destruction of Orthodoxy in sacred Russia besides immigrants have remained cut off from the brothers and sisters in the West.

Actually ideological opposition of communism and the West has consisted only that the totalitarian communism of puritans and totalitarian liberalism of puritans with each other struggled, and players of process were the same brothers on belief - Satanists. In the USSR ordinary citizens and members of a party were piously sure in infallibility of the leaders that was reached by a masterly manipulation consciousness and a deceit of the widest working weights. At top of hierarchy reigned lie, debauch, cynicism, наплевательство on interests and expectations of people. Chances to get in « sacred » the USSR - the Political bureau and the Central Committee of the CPSU were only and cohorts of elite, successors and ассимилянтов immigrants with local people - Russians.

Stalin's religious cleanings, totalitarian communism and absence of freedom, in particular freedom of speech, did not allow the population to realize the fact of the slavish position and service горстке immigrants - fascists of puritans, Satanists.

Impossibility of a gain of world supremacy by totalitarian communism has forced immigrants to replace a vector of management of the USSR with left on right, at unconditional support and financing of this new pernicious process for Russia, people and Orthodoxy. This decision was supported by agents of influence of Puritanism in the USSR, described above. Unfortunately, the main agent of influence of totalitarianism became first and last President of the USSR - M.S. Gorbachev and rack of his adherents. For realization of cardinal change of a rate it began necessary to use new ideology and receptions of propaganda war. I shall result only the citation from plans of formation of a "democratic" society in the USSR:

« The literature, theatre, cinema - will represent everyone, and to glorify the most low human feelings. We shall support in every possible way, and to lift so-called artists who begin to spread and drum a cult of sex into human consciousness, violence, a sadism, dissident's, say, any immorality. In government we shall create chaos and confusion...

Honesty and decency will be mocked also begin to nobody, are necessary, will turn in a vestige of the past. Rudeness and impudence, lie and a deceit, drunkenness, a narcotics, animal fear the friend before the friend and impudence, dissident's, - all this we shall spread nationalism and opposition of peoples dexterously and imperceptibly...

We shall loosen, thus, generation behind generation... We shall undertake people from nurseries, youthful years, the main rate we shall always do on youth, we begin to decompose, corrupt, corrupt her. We shall make of them agents of our influence, cosmopolitans of a free world. Here so we also shall make it » the Truth. 1994.11.03.

There was a necessity of formation of a new party of totalitarianism and the fascism, personifying ideology of liberalism or Puritan fascism of the western type.

This difficult a problem in transitional conditions was solved with various groupings of groups of anonymous authority since 1993, time of route of the Supreme Soviet of RSFSR and acceptance of the new Constitution of the Russian Federation, and also formation of the new form of elective legislature - the State Duma of the Russian Federation. The problem was solved during 1993 - 1999, including an intermediate variant « our house Russia » V. Tchernomyrdin, new party in power « Uniform Russia » has not been generated yet.

At the end of 1998 the new selective block under the false name " Fatherland - All Russia " ("OVR") is created. Which in the autumn of 1999 three known figures - mayor of Moscow J. Luzhkov (club " Rotary "), former chairman of the government of the Russian Federation E. Primakov (the Maltese award) and Tatar nationalist M.I. Shaymiev (a box " Young Turkey ") have headed, together with one more adept R.Aushev. All these people, anyhow, took part in revolution of September - October 1993. The main thing financial and a supply with information of the selective block was carried out by one of heads international сионизма, vice-president the CENTURY, the chapter of a community of immigrants of Russia, a member "Внау-Брет" also club " Rotary " V.A. Gusinsky, who processes newspapers "Today", " Moscow Komsomolec ", " the Moscow Pravda ", " the Literary newspaper ", magazine " Results ", television company " NTV "

and radio station " Echo of Moscow ". Gusinsky's the nearest colleagues participated in financing selective block " OVR " - M. Fridman, B. Hait, V. Malkin, A. Smolensky, M. Khodorkovsky also.

It is important to note, that as against the old clan of ruling elite guided mainly on the USA and the capital of immigrants of this country, the new clan headed by Luzhkov, is guided by the Western Europe and Israel. That fact testifies to the last, that the new clan is supported with all supervising top of the Zionist organizations, many of which will consist in "Bnay-Bret". Preliminary arrangements of leaders of block " Fatherland " with Masonic structures of the Great East have been specified and confirmed at E. Primakov's negotiations with the president of France Z. Chirac in November 1999.

In a counterbalance to a grouping of the puritans-European freemasonry the American and Maltese Masonic clans create the selective block under the name "Unity", which had the purpose to unit all immigrants forces under the direction of Yeltsin and his criminal-cosmopolitan environment. The organizational structure and personnel structure of heads of the block have been determined by B.A. Berezovskiy, R.A. Abramovichem, A.S. Voloshin, V.B. Yumashev. The nominal head of the block became puppet leaders, open commands from B.A. Berezovsky. For service of clan interests all forces of machinery of state have been thrown. The first and second channels of the state TV, and also TV - 6 worked completely on propagation of this block. For discredit of the political opponents the dirtiest and shameless methods with which the propagandists engaged by Berezovsky - S. Dorenko, N. Svanidze, M. Leontjev especially differed were used.

As a result of elections to the Duma of 1999 skeleton of the future fascist party of totalitarian liberalism was generated. "Voluntary" leaving of the President of the Russian Federation B. Yeltsin at night since December 31 for January 1, 2000 has given way to new protege A. Chubays, the lieutenant colonel of KGB of V.V. Putin.

In 2000 V. Putin has been elected by the President of the Russian Federation, and his Administration has engaged in formation of party in power by association of contradictory clans - puritans of Europeans, immigrants, Yong Turkey and Americans. Contradictions were gone, and in the beginning of 2002 « Uniform Russia » has appeared. In a new party, naturally, parties and political movements "Unity" and « All Russia » have come. By the way, one of variants of translation fascism Italian fascismo, from fascio - a bunch, a sheaf, association, but also "unity". For a manipulation consciousness of Russians on a political arena have left both left, and right flanks with parties all the same groups of anonymous authority. 2004 has finally fixed success of " Uniform Russia » under B. Gryzlov's management and the protйгй of groups of anonymous authority, the President of the Russian Federation V. Putin having the cousin of the citizen of Israel.

In conditions of XXI century groups of anonymous authority should be arranged under new circuits of work and methods fake Russian population. Planting of new modes such as Stalin is not so fashionable and will not be apprehended by the majority of the population. Therefore the leader of a new fascist party of totalitarian liberalism became the President of the Russian Federation, thus officially not consisting in party in power. However « Uniform Russia » it is unequivocal and in all party documents and official sources specifies domination of the leader of a party - V.V. Putin, the spiritual and ideological leader. B. Gryzlov plays a role of the simple manager in lots, but not the leader, differently - technological "Douche".

The party of Puritan fascism has opened ideological and mass terror against opposition, both with right, and with left flanks. Though these parties have only front character and cover domination of totalitarian liberalism, « Uniform Russia » has directed all efforts to last years, from support of Administration of the President, on discredit of the opponents. Puppeteers of the Kremlin have resulted them in completely not a capable condition, having given « Uniform Russia » all levers of authority in the State Duma (committees, the commissions), and also in legislative assemblies of regions of Russia. For domination of the ideology the party of fascism has actually refused anyone more or less distinct ideology, having turned in body, штампующий all laws and legislative initiatives of the leader - the President of the Russian Federation V. Putin. Laws are offered only by the Government of the Russian Federation and Administration of the President. The essence of ideology of the leader is shown in laws and methods of management by Russia, is more true than methods of destruction of Russia as complete and indestructible state, and also his distressful people.

Ideology of the leader and party of fascism - totalitarian liberalism.

It leans ostensibly on imperial chauvinism of Russian people, but not in words, and in practice represents chauvinism of the first revolutionary immigrants, actually the Bolshevism in new economic and social conditions. Xenophobia passes in recurrence of genocide of Russian people, including genocide of Russian Moslems. A vivid example of this xenophobia - war in the Chechen Republic, untied by Puritan clans in 90th years, and terrorist war with own people. The terrorism of groups of anonymous authority against people became the key factor of deduction of antinational authority of Puritan fascism. Ideological terror is directed also on any displays of Russian consciousness, national originality of peoples of Russia, culture and art. Any rudiments of nationalism are destroyed, criticized and exposed to obstruction under a kind of protection of freedom and democracies, internationalism and struggle against anti-Semitism. The lie, demagoguery, populism, slogans of the social help to the poor and plundered people, game on national pride of Russians with application of attributes of Russian empire, chatter on amplification of power structures have hammered in all mass-media and screens of TV. Actually the fascist mode does all for destruction

and discredit of power structures - FSB, the Ministry of Internal Affairs, Armies and Fleet. Totalitarian liberalism by fake tries to find a support in the poorest layers of the population, but to make it there is all more difficultly and more difficultly, and soon it is actually impossible. Russian people has finally come off the enslavers who have plunged into euphoria of money-making and permissiveness.

The policy of the leader of modern Puritan fascism has gone to impasse when even the most blind and hammered, illiterate citizen of Russia understands from a half-word, that the clique of the Kremlin in words promises prosperity, and does all worse and worse, the genocide of Russian people has reached the apogee. The vivid example of continuity of generations of totalitarian communism and totalitarian liberalism is seen on Gaydar's family. Grandfather Arcady destroyed thousand Russian patriots own hands. But his grandson Egor Gaydar has surpassed all most courageous expectations. Reforms of economy of Russia and his laws of totalitarian liberalism have led to destruction for famine, stresses, absence of medicines, money of millions and millions pensioners. More than 10 million people have ahead of schedule died from actions of grandson Gaydar. But the present fascist, the puritan has no repentance. It even on court, which has recognized his guilty of these death, has declared, that it about anything does not regret, that pensioners all the same would die. Anyhow.

Gaydars - here the present heroes of Puritan fascism of XX century.

In a party of ruling fascism will consist already about one million person, and the emphasis is done on a class of officials and functionaries of business, osculate to working system Jew Orthodox heresies. Corruption makes a base element of maintenance of a pyramid of authority. Corruption is a virus of a temptation of puritans for members of a party of Puritan fascism. She is ineradicable, but alive only before that time while the virus will not be destroyed.

I believe, that simple members of a party even have no representation, that are винтиками a modern variant of fascism, a support of totalitarian liberalism on places. Conscience of them disturbs, but does not torment.

Totalitarian liberalism and Puritan fascism are not property only Russia.

The center of totalitarian liberalism is located in the USA. A brain and an ideological core of world Puritan fascism this secret society of puritans « the Skull and Bones ». He includes ruling elite the USA and the West. Fascists the USA have achieved last years no alternative arrival to Presidential authority in the USA only members of almighty community. Since R. Regan, G. Bush Older, B. Clinton, G. Bush, the candidate from democrats at elections of 2004 G. Kerry - all members « Skulls and Bones ». At the future elections of 2008 democrats plan to put forward wife Clinton in candidates of the President the USA, she also a family member « Skulls and Bones ». In Hitlerism Germany the analogue of this secret organization - Gestapo and division CC « the Dead head » was, the symbolic coincides completely.

Unique exception of these lines contender G. Bush at the last elections - the democrat of Mountains who was the orthodox mason. Despite of presence of "democracy" in the USA, all members of a pre-election staff Mountain are today either in prison, or under consequence, or have suddenly died of poisons.

The judicial system in the USA for a long time is not independent, and serves only to orders and interests of Puritan fascists. Same the power and confidential structures of the state subordinated at all to ideals of Freedom and Democracy, to people the USA, and to religious radicals of devilish sense are engaged.

In the USA Puritan fascists, giving due to ideals of the first masons - founders, show miracles of resourcefulness and lie, for maintenance of an external facade of Freedom, but external and the internal policy of a clan of fascists brightly proves all radicalism of puritans. Restriction of the rights and freedom of own population, continuous threat of imaginary terrorism, toughening of a police mode. The international terrorism, wars against Afghanistan and Iraq, destruction of Serbia, support of the Albanian extremists in Kosovo, carrying out of tough policy in everything, a manipulation economy of the world the international financial institutions of puritans. All crimes of last years in the world, overthrow of the USSR and attempt of final destruction of Russia, Orthodoxy and the Islam are the unbiased facts which are a priori not demanding the proof of existence and domination of totalitarian liberalism.

Totalitarian liberalism is essence of Puritan Fascism.

In Russia Russian people still had only one variant constitutional overthrow of a ruling fascist mode of totalitarian liberalism. This carrying out of a referendum about convocation of the Constituent assembly dispersed by totalitarian Puritans - Bolsheviks still in far 1917. Elections to the Constituent assembly of the deputies who are not entering in any modern political parties, observance of a principle of proportional national representation, passage of obligatory certification on a polygraph for an accessory to groups of anonymous authority, a mafia or participation in corruption.

Carrying out of the Constituent assembly, spelling and acceptance on a national Referendum of the Russian Orthodox Constitution, formation of new authorities in all levels. Carrying out of " the Nuremberg Process » above Puritan Fascism and Totalitarian Liberalism.
